Application Initiated By Zara Atal

Lay Summary Trial of training materials for electronic submissions to the Program for Protection of Human Subjects (PPHS) through the new Ideate system.

character count: 14

1. Click the **replace** link. A popup window will display the pick list of all personnel in the system. If the new PI is not on that list, go to <http://osticket.mssm.edu/support> and submit a request to have the PI added as a new user.

2. After selecting the new PI, check the **Primary Department** and make sure it's correct for the new PI.
